IT Consultant (San Diego)

QR Code Link to This Post

Employment Type: full-time/part-time

Bayside Networks is a San Diego based IT Consulting Firm that focuses on providing professional technological assistance and excellent customer service to cultivate valuable, enduring client relations. Established in 1986, the company was initially created to resolve technical issues that exceeded the capability of computer stores. The founder's success is based on his customer-centered approach, which has led to referrals by many of his satisfied clients.

Today, Bayside Networks serves over 100 San Diego based companies and non-profit organizations.

As an IT Consultant, you will work in the field with small to mid-sized businesses to manage and support their technology systems, networks, and desktops through a combination of helpdesk and project-based work. You'll combine your technical expertise and business skills to understand their needs and provide them with reliable systems, vendor management, and exceptional service and support.

We are looking for someone with excellent communication skills, knowledge of industry trends, emerging technologies, and a genuine interest in the field. To be successful in this role, you need to be passionate and motivated, self-directive, resourceful, adaptable, and display personal ownership.

REQUIRED SKILLS & ABILITIES

- * Bachelor's Degree preferred
- * 1-2 years of experience working with Helpdesk and system administration preferred. This experience could be within a consulting firm, or within a single company.
- * Basic Active Directory administration
- * Configure, manage and install hardware-based firewalls

- * Advanced desktop support, troubleshoot, rebuild, reconfigure & restore
- * Basic and growing knowledge of some cloud based services
- * Superior oral and written communication skills
- * Demonstration of ongoing professional development
- * Authorization to work in the U.S., a valid D/L, car and insurance
- * Able to lift and carry 50 lbs. or more
- * Able to stand for long periods of time
- * Ability to pass drug and background checks
- * A valid driver's license and reliable transportation to drive to and from client sites

Additional, helpful qualifications:

- * Ticketing/service tracking experience
- * Applicable certifications (such as MCSE/MCSA, MCP)
- * Mac OS and iOS familiarity
- * IOS/Android
- * Virtualization technologies, especially Hyper-V
- * Managed service tools/technologies: such as Continuum

Compensation: 50-65k (full time) DOE with growth potential

We offer a health care allowance, Dental, Vision, IRA Plan, Training plan, and PTO for full time employees.
